CLEANING INSTRUCTIONS

S

Spot clean only with a water-free dry cleaning solvent. Pretest a small, inconspicuous area before proceeding. Do not saturate. **DO NOT USE WATER.** Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance. Cushion covers should not be removed and dry-cleaned. To prevent overall soiling, frequent vacuuming or light brushing with a non-metallic, stiff bristle brush to remove dust and grime is recommended. When cleaning a spill, blot immediately to remove spilled material. Clean spots or stains from the outside to the middle of the affected area to prevent circling. ***Overall cleaning by a professional furniture cleaning service only is recommended.***

NOTE ON RAYON CONTENT FABRICS

The rayon chenille yarn behaves in a very similar manner to a pile fabric or velvet in that the yarn has a tendency to crush or compact, resulting in light or white areas in the fabric. Our suppliers have tested each of these fabrics and they have met all industry standards for performance and durability. This pile distortion can be removed through steaming and light brushing, but these conditions may reappear over time. Claims for this condition as defective fabric cannot be accepted as this is a natural and inherent condition of rayon chenille fabrics. Please check the content found in our master fabric list (located in our price list) to identify these fabrics.
