Sleeper Construction Features

Big Max Plus Mechanism

All tubular steel construction for greater strength.
Low profile side linkage to eliminate mattress grab.
Tubular steel one-piece leg for greater support.
Contoured saddle seat for seating comfort.
Double locking TV headrest with two positions.
Headrest stop to prevent folding while bed is open.
One-piece locking bar unlocks from center of sides.
Crosswire support for sleeping comfort.
All steel parts de-burred to eliminate sharp edges.

Kingsdown Mattress

Inner spring mattress with oven tempered springs.
“Memory” inner springs for added resiliency.
“Flexatron” insulation to eliminate coil feet.
“Inner Roll” quilting lets mattress fold flatter.
Specifically designed for both sofa or bed use.
Allergy free by use of hypoallergenic materials.
Odor free materials bonded in oven at over 400 degrees F.
Mildew resistant through use of man made fibers.
Environmentally friendly using CFC-free foam.
